

D - Neuro - Essential Tremor

Please complete the survey below.

Thank you!

1. Gold Standard Diagnosis:

Does the participant have essential tremor?

- ☐ Yes
☐ No
☐ Not certain

How was this diagnosis confirmed? Select all that apply.

- ☐ Neurologist
☐ Movement disorders specialist
☐ Other specialist
☐ Hospital discharge summary
☐ Problem list or ICD code
☐ Diagnostic testing
☐ Participant self-report
☐ Unknown

Neurologist

Date of most recent documentation supporting essential tremor:

Movement disorders specialist

Date of most recent documentation supporting essential tremor:

Other specialist

Please specify:

Validation Criteria Checks

Evidence of bilateral upper-limb action tremor documented by history or exam

- ☐ Yes
☐ No
☐ Not certain

Tremor duration is at least three years

- ☐ Yes
☐ No
☐ Not certain

No better alternative diagnosis is documented (Examples: Parkinsonian, dystonic, cerebellar, functional, or medication-induced tremor)

- ☐ Yes
☐ No
☐ Not certain

Validated Essential Tremor Result

2. Disease type

Tremor distribution (select all that apply)

- ☐ Head
- ☐ Voice
- ☐ Jaw
- ☐ Lower limbs
- ☐ None of the above
- ☐ Unknown

Is the tremor postural or kinetic?

- ☐ Yes
- ☐ No
- ☐ Not certain

Is rest tremor also documented?

- ☐ Yes
- ☐ No
- ☐ Not certain

Supportive clinical features (select all that apply)

- ☐ Family history of tremor
- ☐ Tremor improves with alcohol
- ☐ TETRAS performance, ADL, or Fahn-Tolosa-Marín scores available
- ☐ Handwriting or spiral abnormality documented
- ☐ Difficulty eating, drinking, writing, or dressing due to tremor
- ☐ Social or quality-of-life impact documented
- ☐ Unknown or not documented

Does the participant have signs of any other condition? (select all that apply)

- ☐ Ataxia or dysmetria
- ☐ Parkinsonism
- ☐ Medication or substance-related tremor
- ☐ Dystonia
- ☐ Cerebellar signs
- ☐ Functional tremor
- ☐ Thyroid or metabolic condition
- ☐ Not evaluated or documented

3. Assessment

Please provide scores or results from tremor rating assessment scales (select all that apply).

- ☐ TETRAS performance score available
- ☐ ADL score available
- ☐ Fahn-Tolosa-Marín (FTMTRS) total score available
- ☐ Other scale

TETRAS performance score available

TETRAS performance score (0 to 64):

ADL score available

ADL scale used:

ADL total score:

Fahn-Tolosa-Marín (FTMTRS) total score available

FTMTRS total score (0 to 144):

Other scale

Identify scale:

Total score:

4. Imaging and diagnostic tests

Tests and analyses performed (select all that apply).

- ☐ Brain MRI
- ☐ DaTscan or dopaminergic evaluation performed
- ☐ Electrophysiologic tremor analysis performed
- ☐ Relevant labs performed (metabolic, nutritional, autoimmune, blood, CSF, or serum)
- ☐ Other testing

Brain MRI

Brain MRI results:

- ☐ Normal
- ☐ Abnormal
- ☐ Unknown

Abnormal

- ☐ Cerebellar atrophy
- ☐ Brain stem atrophy
- ☐ Other abnormalities

Other abnormalities

Please specify:

Key findings (optional):

DaTscan or dopaminergic evaluation performed

Please specify test:

DaTscan or dopaminergic evaluation results:

- ☐ Normal
- ☐ Abnormal
- ☐ Unknown

Key findings (optional):

Electrophysiologic tremor analysis performed

Electrophysiologic tremor analysis results:

- ☐ Normal
- ☐ Abnormal
- ☐ Unknown

Key findings (optional):

Relevant labs performed (metabolic, nutritional, autoimmune, blood, CSF, or serum)

Relevant labs (select all that apply):

- ☐ Metabolic
☐ Nutritional
☐ Autoimmune
☐ Blood
☐ CSF
☐ Serum
☐ Other

Metabolic

Identify key results:

Nutritional

Identify key results:

Autoimmune

Identify key results:

Blood

Identify key results:

CSF

Identify key results:

Serum

Identify key results:

Other

Please specify test:

Identify key results:

Please specify test:

Other testing

Other testing results:

- ☐ Normal
☐ Abnormal
☐ Unknown

Key findings (optional):

5. Treatment obtained

Has the participant ever had deep brain stimulation, focused ultrasound, or surgery as treatment for essential tremor?

- ☐ Yes
☐ No
☐ Unknown

Past intervention (select all that apply)

- ☐ Deep Brain Stimulation
☐ Focused ultrasound
☐ Surgery

Is the participant currently receiving any treatment or therapy for essential tremor?

- ☐ Yes
☐ No
☐ Unknown

Select all treatment types that apply:

- ☐ Medications
☐ Non-pharmacological interventions

Medications (select all that apply)

- ☐ Propranolol
☐ Primidone
☐ Topiramate
☐ Gabapentin
☐ Botulinum toxin
☐ Benzodiazepines (i.e. clonazepam)
☐ Other

Other

Please specify:

Non-pharmacological interventions (select all that apply)

- ☐ Physical therapy
☐ Occupational therapy
☐ Speech therapy
☐ Deep Brain Stimulation (DBS)
☐ Focused ultrasound
☐ Other
